Claims 10, 12-20 and 22-23 of the amendment filed 4/24/2007 are allowed. The prior art does not teach or suggest the claim limitations “incrementing a current phase location within a scaling cycle by a first value to obtain a first adjusted value, the first value equal to a number of input pixels in the scaling cycle, wherein the scaling cycle represents a scaling operation that is repeated, such that each scaling cycle accesses a common set of filter phases to scale the number of input pixels to obtain a number of output pixels, where the number of input pixels in the scaling cycle is equal to an input resolution divided by a GCD and the number of output pixels in the scaling cycle is equal to an output resolution divided by the GCD, where the GCD is the greatest common divisor of the input resolution and output resolution”, set forth in the base claim 10. The claims 12-15 depend upon the claim 10 and are allowed for the same reason as the base claim 10. The claims 16, 17, 18 and 19 parallel to the claim 10 and are allowed for the same reason as the claim 10. The claims 22-23 depend upon the claim 19 and are allowed for the same reason as the base claim 19.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled “Comments on Statement of Reasons for Allowance.”
